CRYSTAL CLEAR GLASS BLURS
THE LINES BETWEEN INSIDE AND OUTSIDE.

THE MARVIN CONTEMPORARY STUDIO // With Marvin® Contemporary Windows and Doors, big glass, narrow frames, clean lines and modern, complementary hardware combine to create open, light-filled spaces that seamlessly connect interior spaces to the beautiful landscapes that surround them.

HOW A 800 SQUARE FOOT ROOM
FEELS MORE LIKE 800 SQUARE MILES.

LEFT & ABOVE // SPG ARCHITECTS, NY

Eric Gartner, SPG Architects // “ The beauty of the landscape and the amazing views inspired the form and the disposition of the house. The main living spaces invite the landscape in, with the large expanses of glass bringing the mountain views indoors. A broad range of standard Marvin® window and door options were all carefully coordinated with the very professional Marvin team. The relatively closed north entry façade provides just the smallest of hints of the magnificent views . . . through the floor to ceiling windows in a continuous open wall along the south and west façades.

◀ **Robert M. Our work is light-filled, open, and there’s a lot of glass. It’s about an open way of living.
